Mother's Ruin dropped D tuning

1)
Em7 **A7** **D**
And when you got up close you could count the scars on her heart
Em7 **A7** **D**
Trace the love lines from their bitter endings back to the start
Em7 **A7** **D**
She's just waiting for Mr Right we were always told
Em7 **A7** **D**
But she's just waiting, she's just waiting to be old.

Chorus
Em7 **A7** **D**
And what should have been this Mother's ruin just became this Mother's friend.
Em7 **A7** **D**
And every little bottle of gin, just another means to the end.

2)

You were just another cloud, floating in her sky
Waiting for the rain to fall so she could squeeze you dry
And she could steal the love from any passing stranger's eyes
And spit it out again in the blackness of her night.

Chorus

And I'm just sitting here wondering how it used to be
Sometimes you sang just like a blackbird in a tree
But the darkness in your heart well it shifted constantly
Some days the music was the only thing to set you free
