Get drunk at the bar

C G Am F
First you're born and then you die and in between their going to bleed you dry
C G7
Time to change the rules for everyone
C G Am F
I've tried working 9 - 5 but I'm better off dead than living that lie
C G C C7
And I don't need no big house or no car.
F G C Em7 Am
Time's been a good friend of mine, but you and me girl we're going to die sometime
F G C
So why don't we just get drunk at the bar?

Time's been a good friend of mine and we're all going to be dead for a long, long time

So why don't we just get drunk at the bar.

You play guitar, you got a bunch of friends
And it's down heart's road just to see the end
And maybe you can find out who you are.
Jump the rough and you ride the smooth
And you spend all your money on cigs and booze
Come on girl let's look at the stars

Chorus

A diamond's a diamond and a jewel is a jewel
But a man with money he's a dangerous fool
And you don't have to pay just to make us smile.
If there's a heaven I hope there's a hell
'cause when I get down there I'm going ring that bell
And lord god I'm going to make old Johnny Cash smile.

Chorus x2
